PROJECT TITLE

Awards for Educational Excellence Report

DESCRIPTION

This project tested me on how to create a report that displayed a set of data. I was to assume the role of an employee of a consortium of school districts who had to determine which top districts would receive grant money. I was given an Excel file with academic and fiscal rankings for each district. I used this data to make the report that displays the results and the rationale behind choosing the winners of the awards.

AUDIENCE

Members of a special awards committee that are accustomed to dealing with quantitative information.

SKILLS DEVELOPED

- Developed a system to display data
- Maintained a consistent visual style
- Created a clear graphic that can be quickly skimmed to explain the rationale behind these decisions
